Objective

To obtain a position as a Production testing/flowback operator or other work pertaining to the job. To work as a team player to achieve the goals set by the company.

Qualifications

Able to work any shifts required including but not limited to days, evenings, nights, and weekends.

My experience is in working with the public, finding addresses and I do so always, with a smile, and a good attitude. I have been working with the public for over 20 + years, and I am able to lift 75lbs and know how to utilize proper body mechanics; and I utilize all safety measures to ensure safety. I have knowledge in shipping and receiving along with inventory, and quality assurance.

Education

Jersey Shore High School: GED in June of 1981.
CCHS: Graduate in Sept. of 1991.

Relevant Experience

I have been a Respiratory Therapist most of my life, working with the public. This requires me to work with heavy equipment; all sizes of tanks, and also lifting boxes for inventory. I have been trained in back safety and was required to lift individuals much larger than myself while performing in this capacity. Team work and attitude has always been something that I take very seriously.

Other Experience

I would appreciate the opportunity to be considered for a position. I am quick to learn, and I welcome a chance to work for your establishment with the same confidence and determination that I have found in other fields of employment in the past. I have passed clearance background checks for my position with the Department of Commerce while working with the Census Bureau and I am willing to undergo drug screening as well.
